MAIN SKILLS

Python
Django
MySQL
HTML & CSS
UNIX / LINUX
JavaScript
Git
ARCGIS

LANGUAGE SKILLS

English

German

MY PROFILES

I'm a python developer, nature lover and problem solver! I have a strong passion for tech, a natural sciences degree, a M.Sc., 5 years working with ARCGIS, QGIS, databases, VBA. In 2017 i decided to start learning Python with a local school (www.scriucod.eu), then learned Django and web development on my own. I initially used the skills for personal projects or friends, but then in 2021, i started my own web development business, obtaining a few good contracts by now. My aim for the future is to go deeper into programming, learn new skills, by getting involved in complex and challenging projects.

EDUCATION BACKGROUND

2017 – 2018

Programming Course
SCRIU COD
www.scriucod.eu

- A 6 months, unconventional programming course, where we would learn from actually working on small personal projects, that each of us was free to choose.

2010 – 2012

Master in Science
TRANSILVANIA UNIVERSITY
www.unitbv.ro

- Learned Microsoft Access to manage databases, R and STATISTICA to compute statistical tests and charts, QuantumGIS to generate GIS maps with a large database.

2006 – 2010

Bachelor in Science
TRANSILVANIA UNIVERSITY
www.unitbv.ro

- The final thesis included lots of statistical tests on a quite significant amount of sampled data. First but minor contact with ArcGIS.
